G R O U P

**We create a common future –  
- we are part of a Group**

Our development and future are based on trustworthy people and a precisely built network of contacts. We look strong into the future, as it belongs to modular construction and production in the broadly understood construction industry, in which we have been operating for over fifteen years.

## with **BUD INVEST**

Flexible form with  
a stylish interior

### EXTENSION

Not only do our customers get a chance to create various buildings from the base thanks to well selected design solutions along with a short completion date but also Bud Invest solutions offer easy extensions of existing buildings.

The idea of modular construction with Bud Invest solutions give investors almost endless creative possibilities with cost optimisation at the same time.

### ENRICHMENT OF INFRASTRUCTURE

### NEW, STYLISH BUILDINGS

Modular solutions are to Bud Invest's advantage on the market.  
Our power is in the skillful use of the solutions.

### COST OPTIMISATION

autonomous production  
and simplicity of assembly

### ENERGY EFFICIENCY

based on reliable  
technological solutions

### QUALITY CONTROL AND WARRANTY

up to 15 years

### SHORT COMPLETION DATE

from 6 weeks

### FLEXIBILITY

versatile frame constructions

### ESTHETICS

world class visual effects

# Hotels and public buildings

From design to completion, we ensure  
effective manufacturing process of tourists  
and government buildings - fully in  
accordance with current standards.

Flexibility is to our advantage.

# Hotels and public buildings

Flexibility is to our advantage.

The frame-based modular functional and spatial arrangement gives our architects the opportunity to create designs that strengthens the effect of simplicity of form combined with high-quality materials. This makes modular construction a modern technology with a smooth combination of environmentally-friendly solutions.

A photograph of a modern, multi-story building with a glass facade. The building is situated behind a courtyard with various plants and trees. A quote box is overlaid on the upper left portion of the image.

”

The difficulty lies not so much  
in developing new ideas as in  
escaping from old ones

John Maynard Keynes

# Medical units and buildings (COVID 19)

In response to all life-threatening  
emergencies, we offer a vast range  
of ready-made, effective solutions  
for almost every situation.

Time is our ally.

# Medical units

Time is our ally.

Unlimited creative possibilities gives high aesthetic values, quick completion, excellent energy efficiency and good price. Modular units have a number of advantages over traditional construction.

”

Recognizing the  
need is the primary  
condition for design.

– Charles Eames

bio

big  
objects

Thanks to modules that allow free  
modeling of the facade part, our  
units often exceed traditional  
construction in terms of quality.

We provide smart solutions  
for each buissness idea.

# Cafes, Restaurants and more Q<sup>big</sup>

Downtime in projects can be avoided through controlled manufacturing and assembly process of individual building elements, independent of external conditions.

Pergola Q-big

Cafe Q-big

Stylish cafes or small restaurants - this is our offer for a year-round business without location restrictions. In summer, operating on coastal beaches, in the autumn and winter season in the mountains. Everything is possible with us.

# For SPA Q<sup>big</sup>

Carefully planned and discussed design meets the requirements of every client. Combined with efficient implementation will allow you to stay ahead of the competition and meet the requirements of the latest trends and regulations.

Sauna Q-big

Our solutions will make each facility more attractive and will allow you to efficiently expand the range of services provided by the entrepreneur. Filling the complex of holiday resorts? Or maybe an independent business? It is very easy.

# Freestanding Shops Q<sup>big</sup>

Both modular construction and business require attentiveness and analysis of all factors. Flexibility and staying ahead of trends - thanks to the combination of these advantages, we are ready to respond to the current market needs.

Shop Q-big

In the era of dynamic changes and sanitary restrictions, modular units that can function independently regardless of political restrictions definitely gain in value. With us, you can find a place for your business, as well as design a functional space that we will make for you in our production plant in a few weeks.

# More?

We build not only public utility buildings. The range of our services also includes recreational and residential houses that meet the highest standards. Get our next catalog and learn about the new offer.

# multiQ

## objects

We are an experienced developer and general contractor of world-class contracts for many industries. Thanks to our people, acquired knowledge and infrastructure - we introduce modular construction to the broadly understood development markets.

# Group's infrastructure

guarantees our success

We focus on the continuous development of our organizational structure and the team of specialists.

We remember about smart logistics - with production lines strategically located near the port of Gdańsk.

We keep expanding our facilities and strengthening the infrastructure to achieve greater goals in a thoughtful way.
