Modular components allow easy
exterior rendering. We have solutions
for every type of business. Perfectly
designed for your needs.

Cafes, Restaurants and more Q^{big}

Flexible and staying ahead of trends - we are ready to respond to the current market needs.

Stylish cafés or small restaurants - this is our offer for a year-round business without location restrictions. In the summer, operating on coastal beaches, in the autumn and winter season in the mountains. Anything is possible with us.

■ PERGOLA Q^{big}

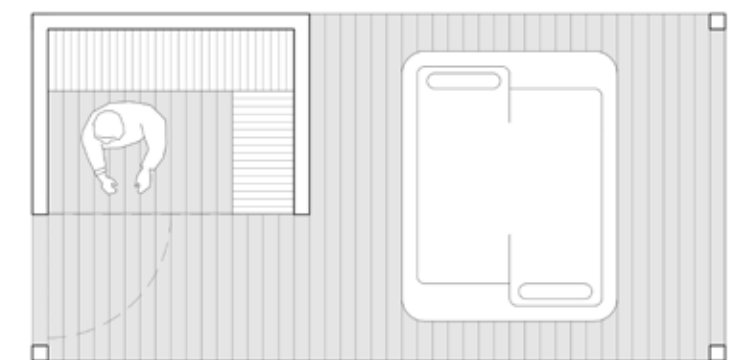

■ CAFE Q^{big}

Q^{big} For SPA

We deliver custom-made project designed to your precise outline. Thanks to a greatly reduced production time, our Clients' business will remain unaffected.

■ SAUNA Q^{big}

We provide additional ideas to support your vision. Looking for a holiday rest - summer house, SPA, or a sports facility? It has never been that simple!

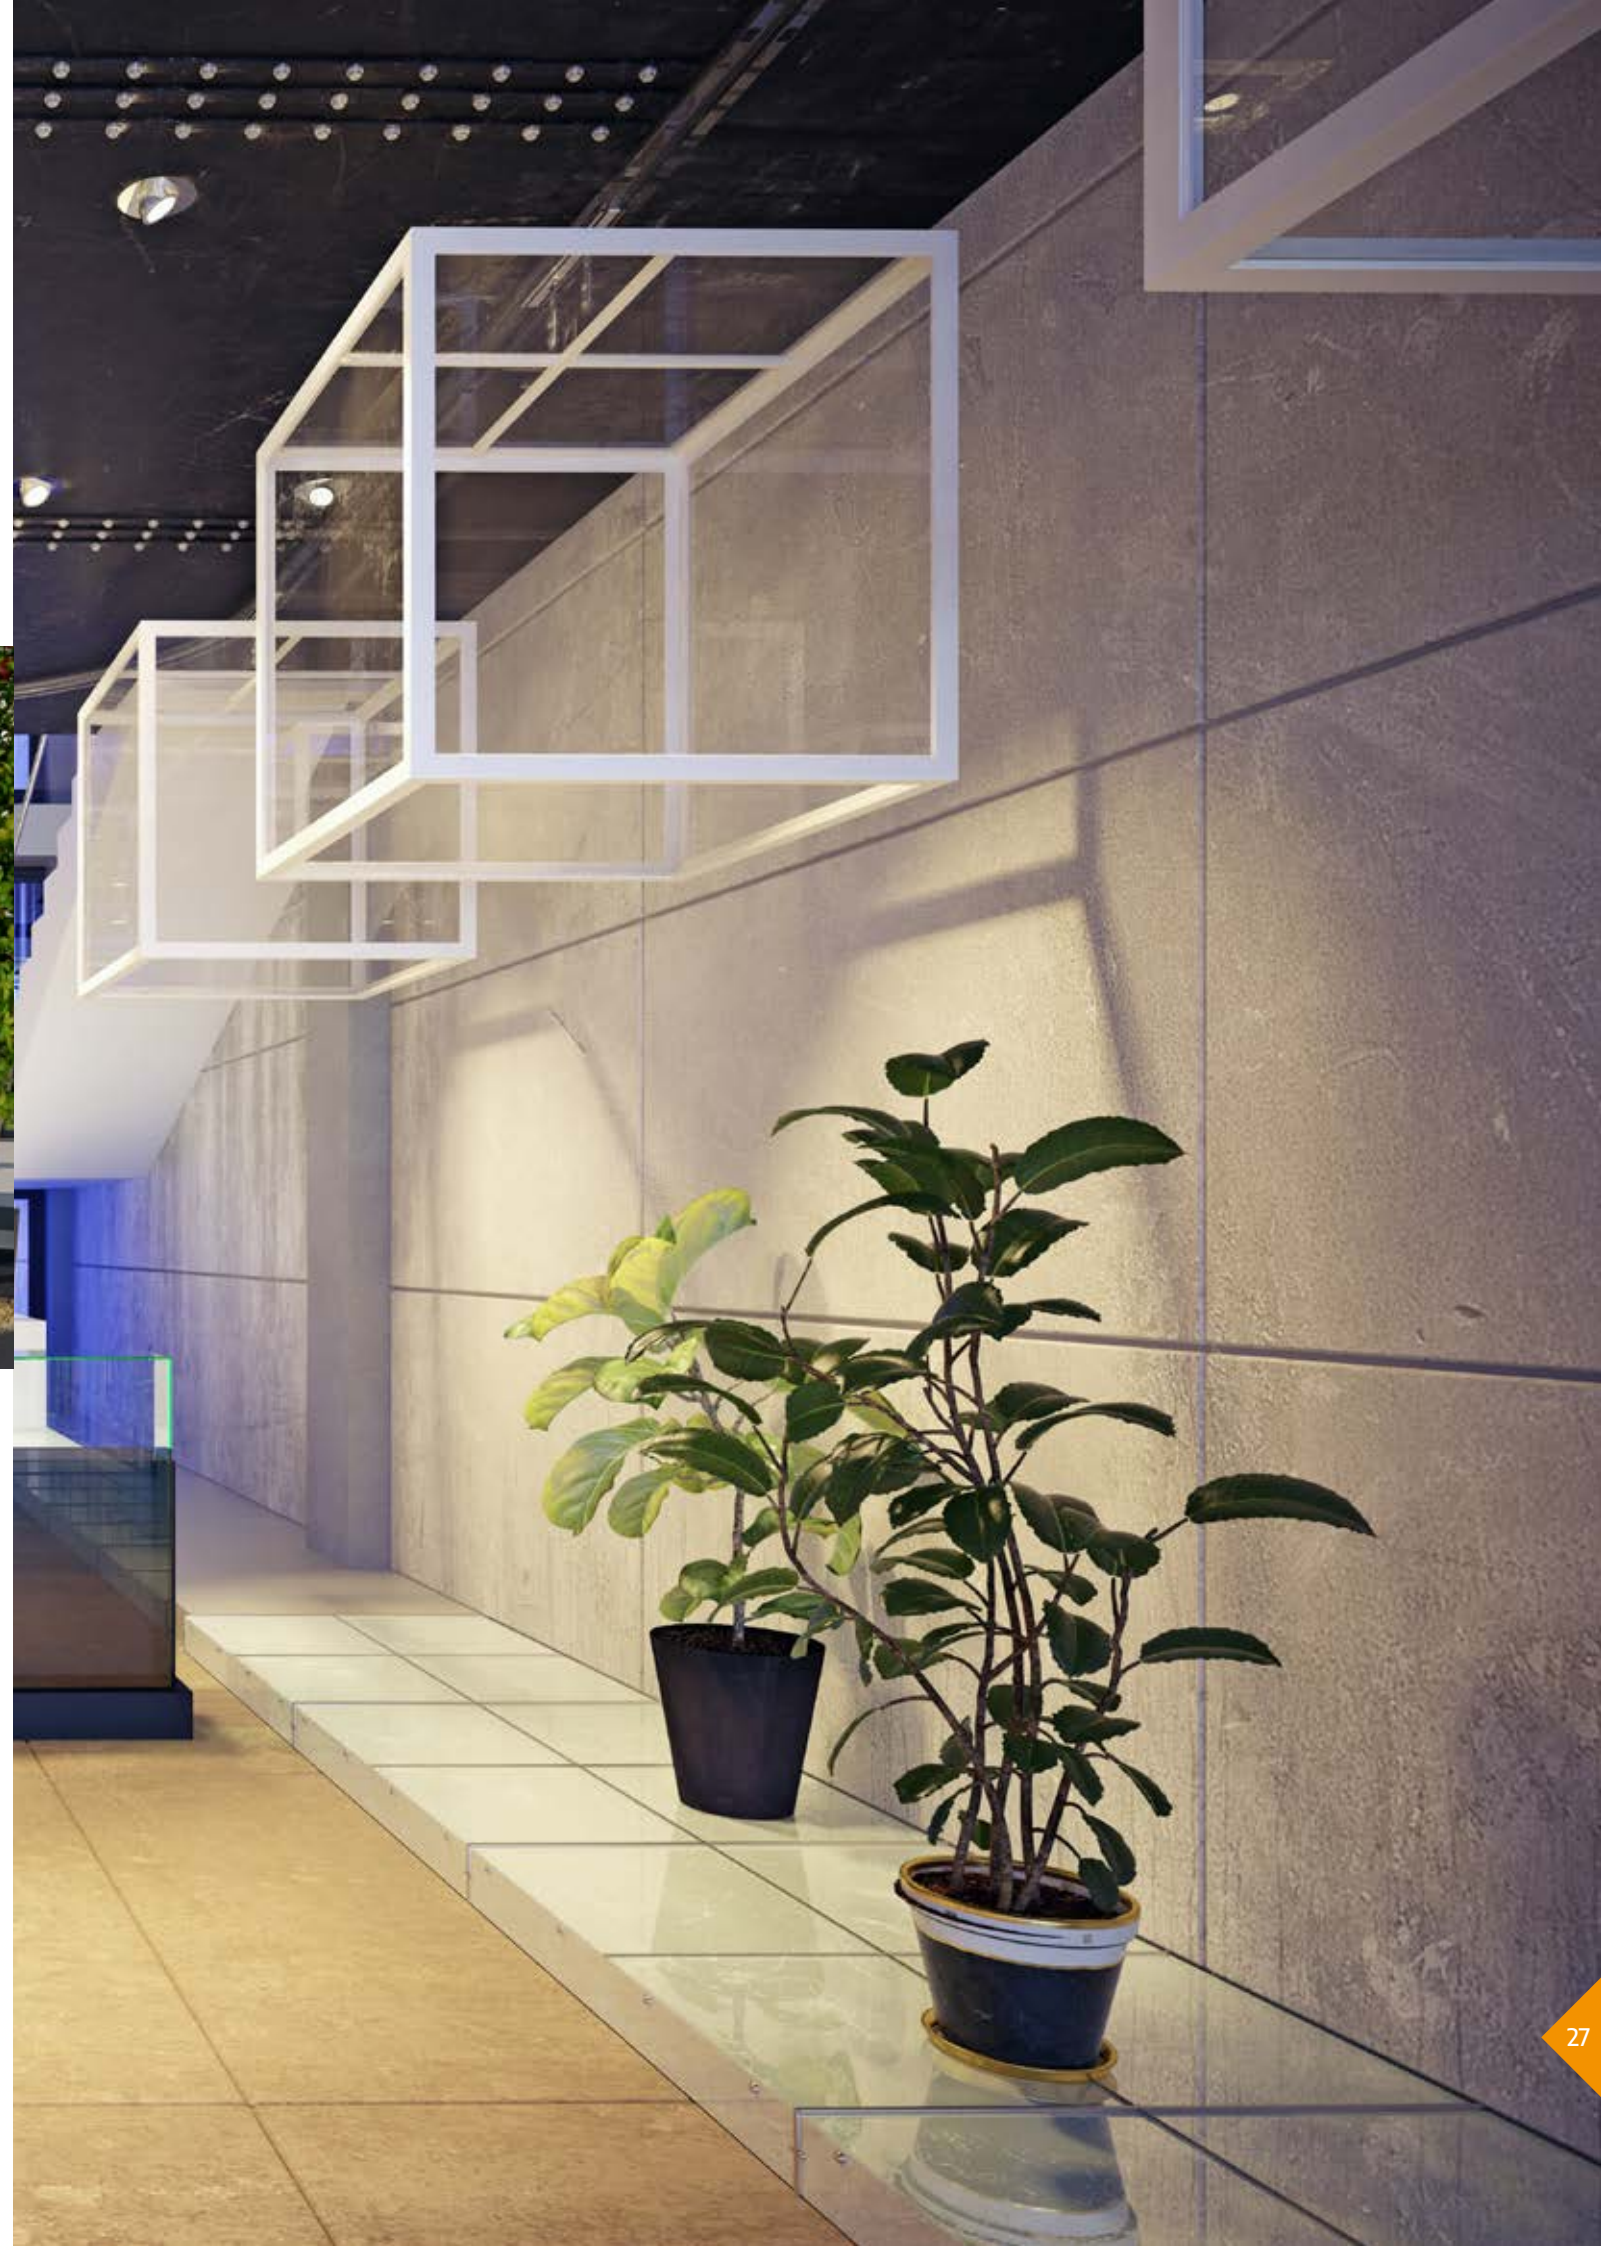

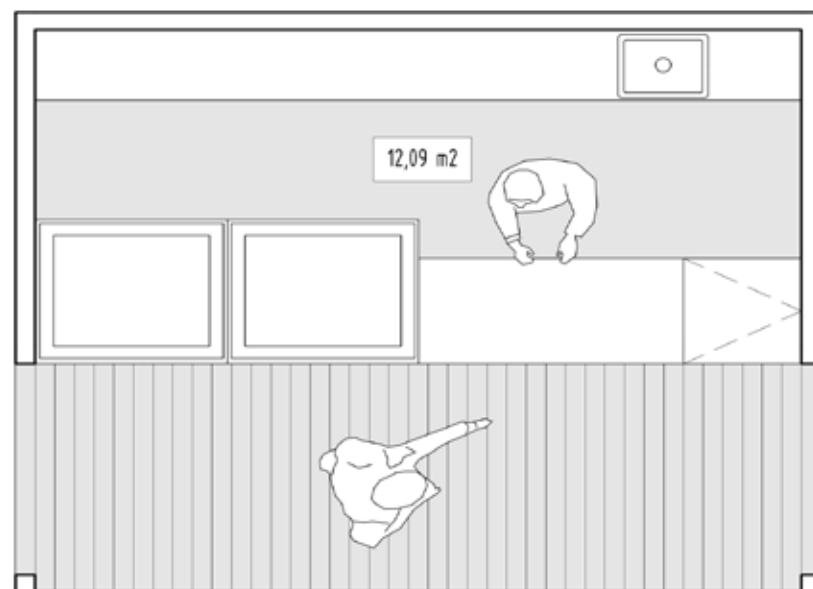

Freestanding shops

Every business requires an individual approach. We know, that in designing an ideal solution a detailed analysis of the needs and purposes is crucial. This will help to find perfect solution for your business.

Our modular construction solutions are ideal for seasonal business. With us, you can both find a perfect spot and design a functional object, which we will deliver to you in just a few weeks.

multiQ

objects

We are an experienced developer and general contractor of world-class contracts for many industries. Thanks to our people, and their knowledge modular production process is carefully planned and monitored (and the quality is assured).

Your project is in good hands!

What else?

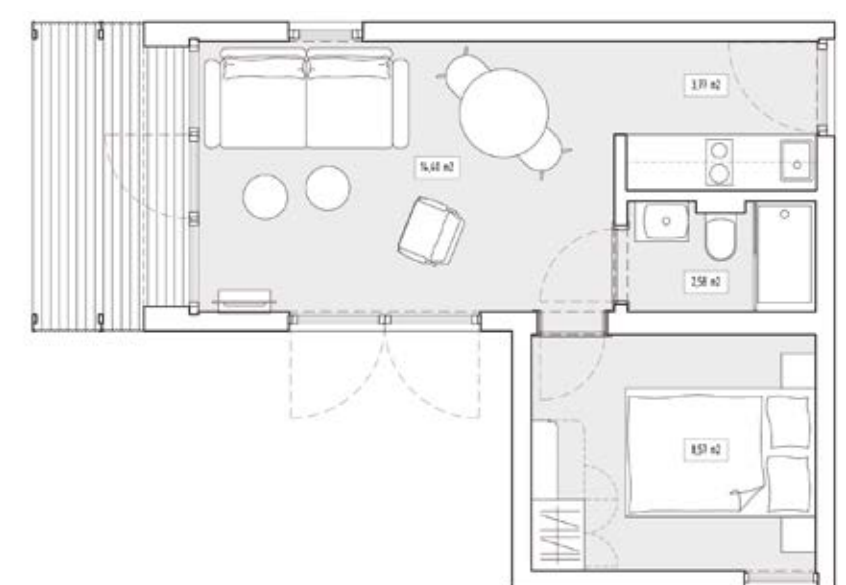

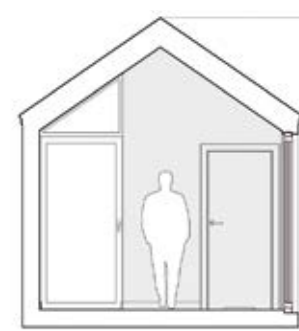

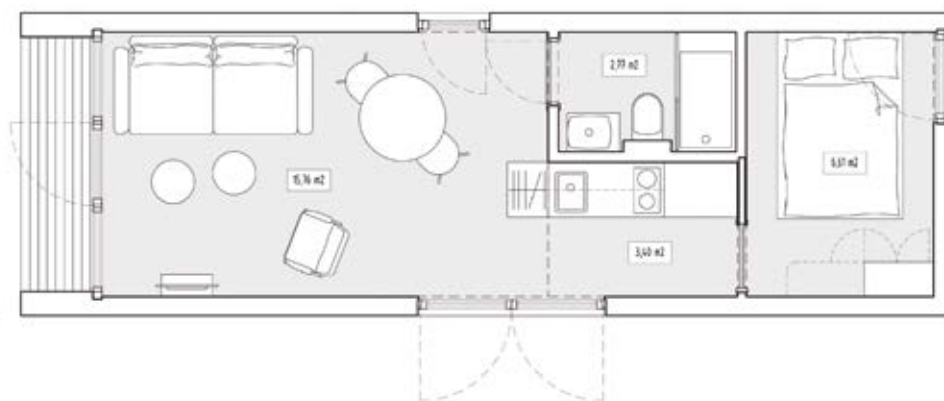

Not only do we build public buildings, but our offer also includes summer houses and holiday resorts.

Check our catalog.

■ TINY HOUSE | OPTION 1

Functionality and cosy interiors with clear division of leisure, cooking and sleeping zones are just a few main advantages of this option.

Photovoltaics

Our RES wholesaler and partner,
together with installers, facilitate us
with the latest technologies compliant
with the investor's needs.

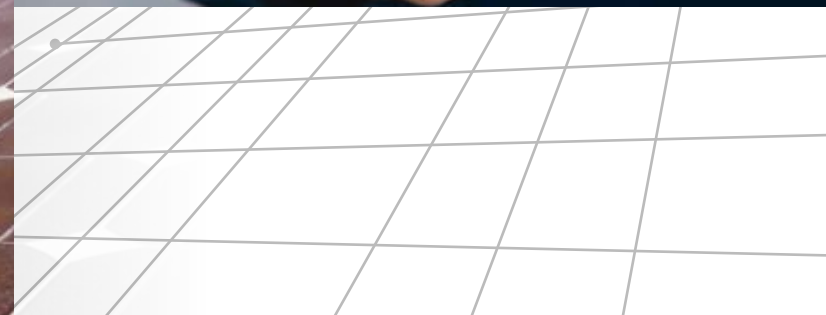

Renewable Energy Systems

Solar panels are one of the systems we can provide you with.

Smart Systems

Including but not limited to: motion sensors, control of lighting, heating, air conditioning, security and access systems available on App.

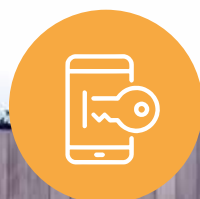

Smart Building

Intelligent remote systems of controlling and monitoring the entire building. Providing control of installations via electronic devices. Monitoring system through security cameras/CCTV, fire protection, anti-burglary systems, and doors secured with an access code. Our aim is to build the highest quality modular buildings that will satisfy any Client's needs.

Smart HOUSES

● Smart lock system

For you and your loved ones – open the door from any distance, from anywhere you are.

● Recuperation

● Thermo-intelligent paints

● Smart Windows

Change the total appearance of the glass to create a sunny view on a rainy day, or check the world's latest news while doing the house chores.

● Air conditioner purifier with air ionization and aromatherapy

Prepare your home for your return from work or vacation – remotely set air purification, optimal temperature, humidity and your favorite fragrance for your interior.

● Cozy home atmosphere

Set the mood at your home with music and lighting of your preference.

Eco-friendly Energy-saving

Our modular units are compliant with the required standards and norms.

Green Building Council LEED

Breem Certifikat

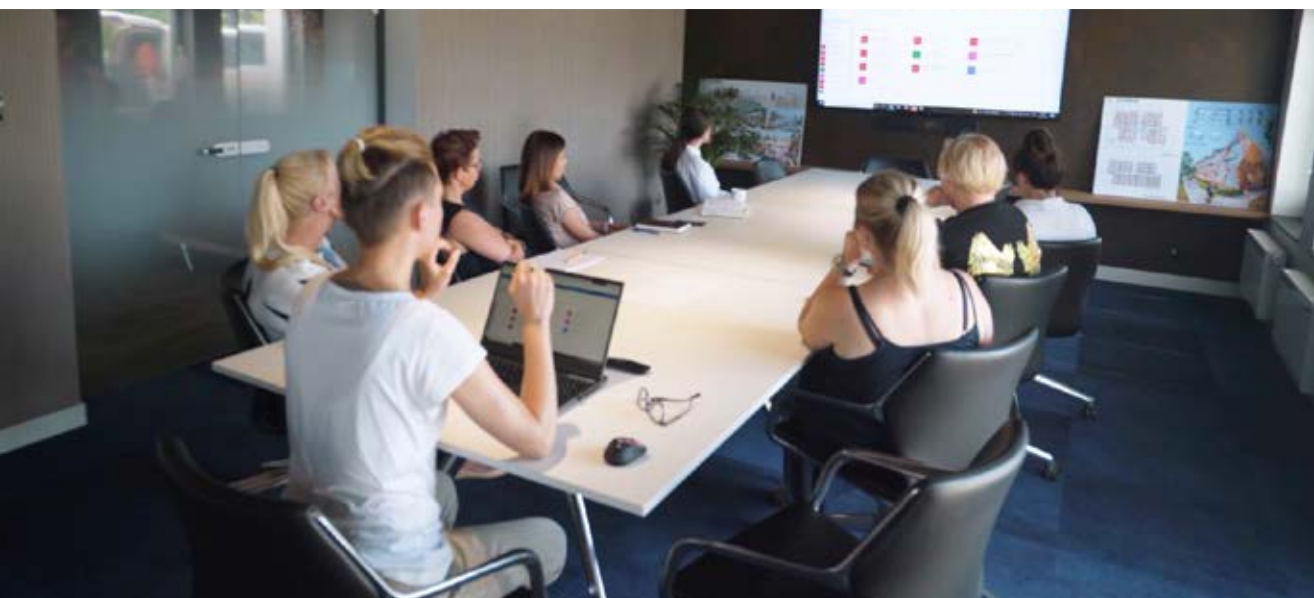

Der Blue Angel

NAPM Recycled

We are manufacturing low-energy, passive and ecological buildings.

About Us

For the last 15 years we've been constantly developing to meet our Clients' expectations.

We refined every detail of our offer.

See what we can do for your business.

”

Architecture is an inspiring atmosphere and beauty. It is a passion for creation in the context of time and place, nature, and culture ”

Tomasz Konior

We create the common future –
- we are part of a Group

The future of architecture is modular. Find out the endless possibilities of the modular architecture. Find out how together we can enhance your business.

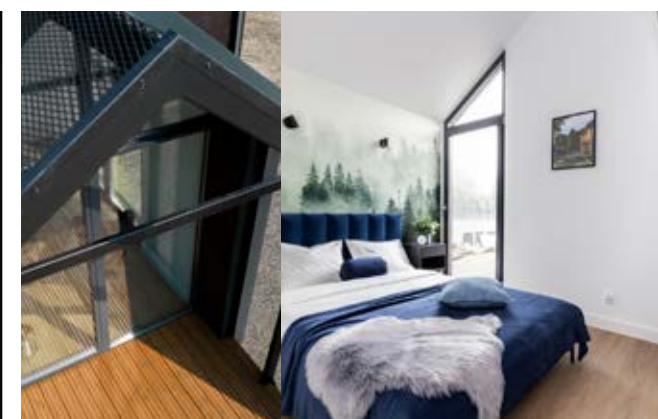

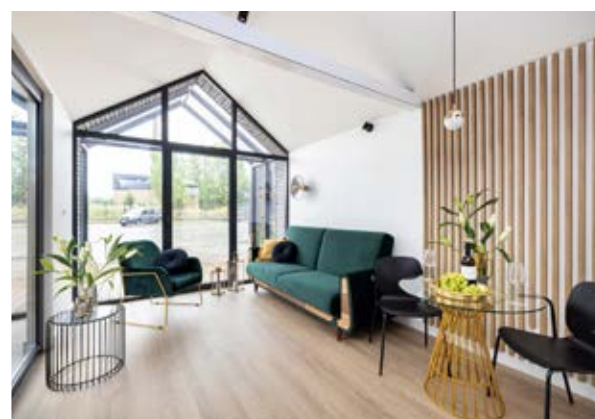

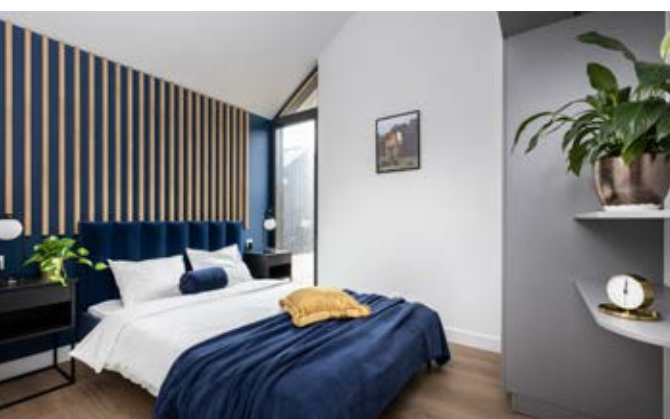

The Group's infrastructure

guarantees Your success

We focus on the continuous development of our team of professionals. We remember about smart logistics — with production lines strategically located near the port of Gdańsk. We aim at development and further modernization of our offer.

THE SKY IS NOT THE LIMIT
We'll build on Mars
